Additional Costs

Travel:

We are based out of Minneapolis, MN so most shoots require travel. This is not a problem as our kit is very mobile. We require production to cover airfare and hotel arrangements on all out of area shoots. We will travel via car up to 30 miles for \$0.65 per mile thereafter.

Payment: 50% Non-Refundable deposit is due before calendar date and equipment can be reserved. Remaining Balance is due in full upon completion of the project/shoot.

Insurance: Although we carry our own insurance policy, we require production to provide coverage of any damages to our equipment resulting from a job.

Safety: If for any reason we, **NAME HERE**, find the shooting conditions too dangerous then we will be obligated to refrain from flying. For this reason we strongly encourage our clients to scout locations for any obstacles that may pose a safety issue for shooting (power lines, flying over large groups of people, ect...) We also recommend that they keep a close eye on the weather on the days leading up to the shoot. We have no control over the weather so it is our clients job to book accordingly. Production may call us off for weather on a booked shoot up to 48hrs before the shoot, after which we will be locked in and must charge for the job regardless if we are able to fly or not.
