

EXAMPLE RATE SHEET

UPDATED: APRIL 2014

Standard Rate: \$5,000/day

Breakdown:

Rental Fee - \$2,500 (Covers aerial unit(s), camera*, lenses* and all support equip required to operate)

*Standard kit includes the Canon 7D, Sony FS100, Zeiss 18mm ZF, Tokina 11-16 f2.8 and Canon 16-35 2.8L

Heli Pilot Day Rate - \$1,500

Camera Operator Rate - \$1,000

**Please note: Prices are based on an 8hr day, for safety reasons we recommend not working us longer then that but if necessary longer days can be worked and will be charged hourly beyond 8hr. Overtime will be based on an 8hr day.

Additional Costs:

Travel:

We are based out of Minneapolis, MN so most shoots require travel. This is not a problem as our kit is very mobile. We require production to cover airfare and hotel arrangements on all out of area shoots. We will travel via car up to 500 miles for \$0.65 per mile.

Standard Travel Day Rate:

Both Pilot and Operator take half rate on travel days (\$500/day for operator and \$750 for pilot). No travel charge will be added for equipment.

High Risk Shoots: add \$500/day

Included when we are required to fly in higher risk situations such as over water or at night.

Payment: 50% Non-Refundable deposit is due before calendar date and equipment can be reserved. Remaining Balance is due in full upon completion of the project/shoot.

Insurance: Although we carry our own insurance policy, we require production to provide coverage of any damages to our equipment resulting from a job.

Safety: If for any reason we, **NAME HERE**, find the shooting conditions too dangerous then we will be obligated to refrain from flying. For this reason we strongly encourage our clients to scout locations for any obstacles that may pose a safety issue for shooting (power lines, flying over large groups of people, ect..) We also recommend that they keep a close eye on the weather on the days leading up to the shoot. We have no control over the weather so it is our clients job to book accordingly. Production may call us off for weather on a booked shoot up to 48hrs before the shoot, after which we will be locked in and must charge for the job regardless if we are able to fly or not.
