ORIGINAL PRINT BY TONY KOOP

Loring Park

This photo was taken with a GoPro Hero 3+ Black Edition camera on a DJI Phantom Quadcopter flown by Tony Koop on January 11th, 2014 at 2:46pm. If you look closely - which I'm sure you will – you might notice some interesting footprint patterns in the snow. Now known as Loring Park and Loring Lake, this park that butts up next to downtown was originally named Central Park and Johnson Lake.
