ORIGINAL KICKSTARTER PRINT

Downtown Saint Paul

This photo was taken with a GoPro Hero 3+ Black Edition camera on a DJI Phantom Quadcopter flown by Tony Koop on January 18th, 2014 at 4:08pm. Steam rises from the District Energy building which provides heating services to more than 200 buildings (more than 31 million square feet of building space) using a closed loop hot water piping system underneath the city.
